DETAILED ACTION

Response to Amendment

1. Claims 1, 5, 11, 15, 19 and 22 have been amended, claims 17-18 and 23-26 have been cancelled as requested in the amendment filed on May 09, 2005. Claims 1, 4, 5, 11, 12, 15, 19-22 and 27 are pending in the instant application.

Claims 1, 4, 5, 11, 12, 15, 19-22 and 27 are under examination in the instant office action.

2. The Text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Any objection or rejection of record, which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

Formal matters

4. Applicant is advised that the amendment to the claims filed on May 09, 2005 remains in non-compliance for failure to meet the requirements of 37 CFR 1.121, as amended on June 30, 2003 (see *68 Fed. Reg. 38611*, Jun. 30, 2003) with respect to proper status identifiers.

Specifically claims 4, 12, 20-21 and 27 are presented with status identifiers, which are not permissible under rule 37 CFR 1.121. Appropriate correction is required.

New grounds of rejection necessitated by amendment

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1646

5. Claims 1, 4, 5, 11, 12, 15, 19-22 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Claims 1 and 15 are vague and indefinite for recitation "a cell-free system or an *in vitro* site containing beta-amyloid protein", which does not make sense. Applicant is advised that amendment of claims 1 and 15 obviated rejection under 35 U.S.C. 112, first paragraph (see reasons of record in section 7 of office action mailed on September 27, 2004), because it limited the claimed subject matter to *in vitro* cell-free conditions. However, claims 1 and 15, as currently amended, encompass limitation, which cannot be definitively interpreted. The metes and bounds of "cell-free system" cannot be determined from the claims or the instant specification, as filed. For example, by broadest reasonable interpretation, the claimed method encompasses administration of laminin to a jar containing pure A β protein. One skilled in the art readily appreciates that in that particular case, there would be no beta-amyloid protein fibril formation. Furthermore, it is not obvious what constitutes "an *in vitro* site containing beta-amyloid". Does the "an *in vitro* site containing beta-amyloid" also contain cells? Applicant is advised to rewrite the text of the claims to better express the claimed subject matter.

7. Claims 1, 15 and 19 are vague and ambiguous for recitation "effective amount" without stating an objective as what the amount is effective for.

8. Claims 5 and 22 are indefinite because association of formation of beta-amyloid fibrils within cell-free system, as recited in claim 1, from which claim 5 depends and Alzheimer's disease it is not obvious. Clarification is required.

Art Unit: 1646

9. Claim 15 is vague and ambiguous for recitation “any non *in vivo* site containing beta-amyloid”. The metes and bounds of the limitation cannot be positively determined from the claim or the instant specification. See also reasoning in section 6 of the instant office action as applied to claims 1 and 15.
10. Claims 4, 11, 12, 20-21 and 27 are indefinite for being dependent from indefinite claims.

Conclusion

11. No claim is allowed.
12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
